

ADA Technologies Announces New Employees

DENVER, Colo. (Oct 1, 2008): ADA Technologies today announced the addition of two new employees. Chris Orth, of Palmer Lake, was named Systems Engineer for the company's Distributed Sensor Network (DSN) group and Chris Light, of Littleton, was named Support Engineer for DSN.

Orth brings more than 20 years experience in high speed scalable reconfigurable computers, avionics, sensors, missile systems, satellite systems, and digital signal processing components. He holds a bachelor's of science and master's of science in electronics engineering from California State Polytechnic University.

Prior to joining ADA Technologies, Light was an engineering R&D intern at Epilog Laser and a digital systems testing and integration intern at Comcast. He has a bachelor's of science in engineering with a double specialty in electrical and mechanical engineering, from the Colorado School of Mines.
