

Dr. Thierry Carriere Joins ADA Technologies

DENVER (June 11, 2010): Thierry Carriere, Ph.D. joined ADA Technologies, Inc. as Director of Technology for the firm's Fine Water Mist fire suppression technology program. Dr. Carriere's professional expertise includes extensive experience in commercial and industrial fire suppression R&D.

ADA's FWM technology is being considered by NASA as a replacement technology for fire suppression on the next generation of manned spacecraft due to its advantages in performance, ease of cleanup, compatibility with on-board environmental systems, and ability to recharge during a mission. Prior to joining ADA, Dr. Carriere worked for United Technologies Research Center in East Hartford, Connecticut. He holds a doctorate degree in Chemical Engineering from the University of Massachusetts-Amherst and a bachelor's degree in Industrial Engineering from Ecole Nationale Superieure en Genie des Technologies Industrielles, Pau, France.

Dr. Carriere is based at ADA's headquarters in Littleton, Colorado.
